

# STRIKEMASTER

## Parallelogram Double and Triple DISC PLANTER

Strikemaster frame can be fitted with Gessner Walker triple disc units.

Strikemaster gives you the ability to maximise trash cover.

This versatile machine will also accept the twin disc parallelogram unit.

Retain trash residue and benefit from increased moisture and less soil erosion

Add spring release swivel coulters to the strikemaster and side shoot fertiliser in conjunction with the double disc parallelogram units.

The triple disc Gessner Walker unit will enable fertiliser placement off the plant tyne to avoid fertiliser burn
