HEAVY DUTY TUNGSTEN HARDFACED POINTS

A77 Shank System
- Fits 178mm x 178mm Toolbar
- Adjustable Underframe Clearance: 710mm to 825mm
- Shear Pin 5 Tonne Breakout
- Suitable for all heavy duty applications including rowcrop, cotton, sugarcane and vegetables.
- Specially developed for high underframe clearance and deep placement of fertiliser.
- Accepts all standard accessories
- Approximate weight: 54kg

Part No: 7014-019
$800.00 +GST

A77 Extra Heavy-Duty Shank System
- Fits 178mm x 178mm Toolbar
- Features extra heavy-duty shank adjuster for added durability.
- Adjustable Underframe Clearance: 710mm to 825mm
- Shear Pin 5 Tonne Breakout
- Suitable for all heavy duty applications including rowcrop, cotton, sugarcane and vegetables.
- Specially developed for high underframe clearance and deep placement of fertiliser.
- Accepts all standard accessories
- Approximate weight: 59kg

Part No: 7014-045
$875.00 +GST

Adjustable Clydesdale Shank System
- Fits 178mm x 178mm Toolbar
- Adjustable Underframe Clearance: 750mm to 900mm
- Shear Pin 8 Tonne Breakout
- Suitable for extra heavy duty primary tillage applications for rowcrop, cotton and sugarcane.
- High underframe clearance is ideal for deep placement of gas or fertiliser.
- Accepts all standard accessories including 406mm delta.
- Approximate weight: 122kg

Part No: 7020-120
$1,840.00 +GST

A44 Shank System
- Fits 100mm x 100mm Toolbar
- Adjustable Underframe Clearance: 710mm – 825mm
- Shear Pin 5 Tonne Breakout
- Suitable for all heavy duty applications including rowcrop, cotton, sugarcane and vegetables.
- Specially developed for high underframe clearance and deep placement of fertiliser.
- Accepts all standard accessories.
- Approximate weight: 61kg

Part No: 7014-011
$1,020.00 +GST

**F77 Shank System**
- Fits 178mm x 178mm Toolbar
- 705mm Fixed Underframe Clearance
- Shear Pin 5 Tonne Breakout
- Suitable for all heavy duty applications including rowcrop, cotton, sugarcane and vegetables.
- Accepts all standard accessories
- Approximate weight: 50kg

Part No: 7014-020

**$580.00 +GST**

**Fixed Clydesdale Shank System**
- Fits 178mm x 178mm Toolbar
- 850mm Fixed Underframe Clearance
- Shear Pin 8 Tonne Breakout
- Suitable for extra heavy duty primary tillage applications for rowcrop, cotton and sugarcane.
- High underframe clearance is ideal for deep placement of gas or fertiliser.
- Accepts all standard accessories including 406mm delta.
- Approximate weight: 79kg

Part No: 7020-126

**$1,310.00 +GST**

**F44 Shank System**
- Fits 100mm x 100mm Toolbar
- 705mm Fixed Underframe Clearance
- Shear Pin 5 Tonne Breakout
- Suitable for all heavy duty applications including rowcrop, cotton, sugarcane and vegetables.
- Accepts all standard accessories
- Approximate weight: 32kg

Part No: 7014-004

**$660.00 +GST**

**HDR Shank System**
- Fits 178mm x 178mm Toolbar
- 850mm Fixed Underframe Clearance
- Shear Pin 8 Tonne Breakout
- Suitable for extra heavy duty primary tillage applications for rowcrop, cotton and sugarcane.
- High underframe clearance is ideal for deep placement of gas or fertiliser.
- Accepts all standard accessories including 406mm delta.
- Approximate weight: 79kg

Part No: 7020-126

**“F” Shank**
- Part No: 7008-009
- **$190.00 +GST**

**FA77 Shank Carrier Assembly**
- Part No: 7012-102
- **$345.00 +GST**
### Heavy Duty Headstock
- CAT 3 – Heavy Duty Quick Hitch
- 6 Mounting Brackets
- Headstock width: 2600mm
- Approximate weight: 257kg.

**Part No:** 7252-378

**$4,590.00** +GST

---

### Extra Heavy Duty Headstock
- CAT 3-4 – Heavy Duty Quick Hitch
- 8 Mounting Brackets
- Headstock width: 2600mm
- Approximate weight: 317kg.

**Part No:** 7252-832

**$5,710.00** +GST

---

### Heavy Duty Depth Wheel Assembly
- 11.00 x 16 Multi-rib Tyres.
- Approx weight per pair: 330kg.
- Suits 178mm x 178mm Toolbars.

**Part No:** 7110-118

**$5,750.00** +GST

---

### 750mm Wrap-around Spreader Bar
- Suits 178mm x 178mm Toolbars.
- Wrap-around clamp plates provide strength and frame flexibility.
- Approximate weight: 53kg.

**Part No:** 7252-576

**$575.00** +GST

---

### Side Buster Diagonal Brace
- Suits 178mm x 178mm Toolbar.
- U-Bolt fasteners provide ease of fitment and frame flexibility.
- Suitable for Sidebuster machines.
- Suits 3 bar frame with 750mm spacers and 305mm bridge.

**Part No:** 7252-912

**$467.00** +GST

---

### 305mm Bridge Support
- Approximate weight: 16kg.
- Suits 178mm x 178mm Bridge and 178mm x 178mm Toolbar.

**Part No:** 7252-903

**$300.00** +GST

---

### Stabiliser Tracking Disc
- Suits 7” x 7” Toolbars
- Features turnbuckles for depth control
- Heavy duty fabricated tracking frame
- Ø660mm x 10mm Coulter discs
- Approximate Weight: 293kg

**Part No:** 7259-072

**$5,700.00** +GST

---

#### Spacer Key FA77
- 3 x 1
- Suits new FA Clamp
- Part No: 7012-095
- $24.30 + GST

#### Spacer Key A77
- 3 x 1
- Suits Old U-Bolt Style
- Part No: 7012-019
- $23.50 + GST

#### 130 x 25 Rowcrop Shank w/ Shin guard
- Fits all 76mm x 25mm Shank Clamps
- Accepts fertiliser tubes, gas deltas and more.
- Adapts to A77 and A44 Clamps
- Approximate weight: 17kg.
- Part No: 7020-127
- $310.00 + GST

#### 3 x 1 Shank 18”
- Alabama & Mild Steel Friction Trip
- 76 x 25mm Shank
- 457mm High Crown Alabama
- Approximate weight: 30kg.
- Part No: 7020-104
- $254.00 + GST

#### 3 x 1 Shank
- Fits all 76mm x 25mm Shank Clamps
- Adapts to A77 and A44 Clamps
- Approximate weight: 13kg.
- Part No: 7020-142
- $243.00 + GST

#### 3 x 1 Rigid Shank Assembly to suit 4” Bar
- Rigid Clamp
- 76 x 25mm Shank
- Mild Steel Friction Trip
- Suits 100 x 100mm toolbar
- Approximate weight: 30kg.
- Part No: 7020-137
- $515.00 + GST

#### 3 x 1 Rigid Shank Assembly to suit 7” Bar
- Rigid Clamp
- 76 x 25mm Shank
- Mild Steel Friction Trip
- Suits 178mm x 178mm Toolbar.
- Approximate weight: 32kg.
- Part No: 7020-139
- $520.00 + GST

#### 3 x 1 Shear Release Shank Assembly to suit 4” Bar
- Shear Release Clamp
- 76 x 25mm Shank
- Mild Steel Friction Trip
- Suits 100 x 100mm Toolbar.
- Approximate weight: 35kg.
- Part No: 7020-202
- $621.00 + GST

#### 3 x 1 Shear Release Shank Assembly to suit 7” Bar
- Shear Release Clamp
- 76mm x 25mm Shank
- Mild Steel Friction Trip
- 178mm x 178mm Toolbar.
- Approximate weight: 38kg.
- Part No: 7020-136
- $672.00 + GST

#### 3 x 1 Shank 18”
- Alabama & Mild Steel Friction Trip
- 76 x 25mm Shank
- 457mm High Crown Alabama
- Approximate weight: 30kg.
- Part No: 7020-104
- $254.00 + GST

#### 3 x 1 Shank
- Fits all 76mm x 25mm Shank Clamps
- Adapts to A77 and A44 Clamps
- Approximate weight: 13kg.
- Part No: 7020-142
- $243.00 + GST

#### 3 x 1 Rigid Shank Assembly to suit 4” Bar
- Rigid Clamp
- 76 x 25mm Shank
- Mild Steel Friction Trip
- Suits 100 x 100mm toolbar
- Approximate weight: 30kg.
- Part No: 7020-137
- $515.00 + GST

#### 3 x 1 Rigid Shank Assembly to suit 7” Bar
- Rigid Clamp
- 76 x 25mm Shank
- Mild Steel Friction Trip
- Suits 178mm x 178mm Toolbar.
- Approximate weight: 32kg.
- Part No: 7020-139
- $520.00 + GST

#### 3 x 1 Shear Release Shank Assembly to suit 4” Bar
- Shear Release Clamp
- 76 x 25mm Shank
- Mild Steel Friction Trip
- Suits 100 x 100mm Toolbar.

The New Gessner Hydraulic Deep Ripper (HDR) is our latest offering for the deep tillage market. For those farmers wanting the convenience of hydraulic controlled shanks, this ripper has the flexibility of ripping beyond the standard 300-500mm depth most farmers are wanting.

With a heavy duty 6500 lb breakout force this ripper can provide you the flexibility to achieve a maximum tyne depth of 700mm. Like all our deep rippers the HDR comes standard with shanks spaced at 500mm. However, our design team can customise a new HDR to suit any of your machine widths and tyne spacings. So long as you have the horsepower, Gessner can build anything to suit your requirements.

**PRODUCT FEATURES:**

- 200 x 200 x 12mm RHS Main Beam. All 9, 11 and 13 shank machines have a trailing frame.
- Heavy dual tool bar spaced at 2100mm for extra stability.
- Wheels are 500/60 x 22.5 8 stud configuration.
- Shanks are manufactured from the highest quality 32mm wide High Tensile Steel with a maximum working depth of 700mm.
- HDR shanks are a parabolic design allowing for the most efficient depth to tractor horsepower ratio.
- Shanks have 1075mm Under Frame Clearance. All shanks are designed to changeout points and shinguards quickly and efficiently.
- 6500LB Hydraulic Release Shank Assemblies
- Hydraulic Controlled 600mm Diameter Crumble Roller (Optional)
- Engineered designed and tested and fabricated to the highest quality with Australian-made mild steel and Japanese high tensile steel.
PARALLELOGRAM TYNE

- Parallelogram units feature robust 50 x 25mm spring steel tynes with a working depth range of 25 – 200mm.
- Tyne depths are easily adjusted in 12mm increments.
- Manutec press wheel assemblies are available in a range of profiles and diameters. Fixed or swivel mounting options for press wheels are available.
- True parallelogram action is provided with ground following capabilities via 14” rubber banded depth wheels fitted to 20” coulter.
- All pivot points are fitted with chrome pins and oil infused bushes.
- Heavy duty jump cylinders with high quality hard chrome shafts provide units with strength and durability.
- Parallelogram down pressure can be easily adjusted by moving the ergonomic hand grip through incremental pin points. Down pressure increments range from 20kg – 250kg.

The Gessner Landmaster can be configured to suit a range of applications, catering for all of your Broadacre planting requirements. Standard Landmaster configurations range from 12m to 24m featuring tyne spacing ranging from 333mm to 500mm. In addition, custom configurations are available to ensure that all of your planting needs are catered for.

Heavy duty 3-Bar Gessner frames constructed from 100 x 100 x 9 RHS or 178 x 178 x 9 RHS provide the Landmaster with unmatched strength and durability in the field. Frames also feature optional hydraulic single fold and double fold configurations, making the Landmaster easily transportable between working areas.

Various linkage options are available depending on machine size and customer specifications, including three point linkage for smaller machines, and floating trailing hitches applicable to all models.

The durable frame design, coupled with premium customisable attachments and after sales service which is second-to-none, makes the Gessner Landmaster your number one choice for Broadacre planting solutions.
Gessner Centre Busters are designed to provide a highly effective solution for a wide variety of row-crop tillage applications. Featuring a durable, field-proven frame design in widths ranging from 4 row to 12 row and hard-wearing customisable attachments, Gessner Centre Busters are fully equipped to cater for all of your row-crop and dry-land tillage requirements.

**PRODUCT FEATURES:**
- 178mm x 178mm x 9.5mm toolbars and bridge.
- Heavy-duty wrap around clamped spreader bars.
- Fixed and adjustable shank options.
- CAT 3 and 4 quick hitch.
- Depth wheel assemblies vary depending on machine size:
  - 7.50 x 16 Medium-Duty depth wheels on 4 and 6 row machines
  - 11.00 x 16 Heavy-Duty depth wheels on 8 and 12 row machines

Gessner offer a wide range of fertiliser systems designed to compliment your existing row-crop implement. Row-crop fertiliser systems may be purchased in a 4, 6, 8 or 12 row configuration with a range of capacity options ranging from 0.8t through to 3t.

**OPTIONAL ACCESSORIES:**
- Hydraulic frame folding kit.
- Heavy-duty stabiliser disc assembly.
- Shank tooling including sweeps, furrows, gas applicators and more.
The Gessner Predator is a field proven performer in Row Crop cultivation. With machines available in 8 and 12 row configurations, and fully customisable units, the Gessner Predator is as versatile as it is robust.

OPTIONAL ATTACHMENTS:
- Crescent Knives
- Beet Knives
- Barring Discs
- Rigid Mounted 3 x 1 with Alabama.
- 812mm Lifted Wing Sweep
- Shear release 3 x 1 with Alabama.
- Crop Shields.
- Fertiliser Application Kit including ground-drive.

PRODUCT FEATURES:
- 178mm x 178mm 9.5mm RHS toolbar.
- 178 x 178 x 9.5 bridge on 12 row model.
- Heavy duty CAT 3 hitch
- 7.50 x 16 or 11.00 x 16 heavy duty Yoke type depth wheels.
- Full parallelogram inter-row cultivator units.
- Greasable bearings on parallelogram pivot points.
- 5.00 x 8 gauge wheels which maintain constant unit working depth.
- 100mm x 100mm x 6mm RHS tooling bar.
- Pin adjustable tooling mounts.

**Scarimaster Spring Release Tyne Assembly – Straight Tyne with Spear Point & Seed Tube.**
- Suits 100mm x 100mm Toolbar
- Vertically Adjustable 25mm x 50mm tyne.
- Features pin adjustable socket.
- 650lb Spring Release.

Part No: 7017-080

**Scarimaster Spring Release Tyne Assembly – 50° Cultivator Shank (No Sweep).**
- Suits 100mm x 100mm Toolbar
- Vertically Adjustable 25mm x 50mm tyne.
- Features pin adjustable socket.
- 650lb Spring Release.

Part No: 7017-082

**Scarimaster Spring Release Tyne Assembly – Curved Tyne Fitted with Spear Point & Seed Tube.**
- Suits 100mm x 100mm Toolbar
- Vertically Adjustable 25mm x 50mm tyne.
- Features pin adjustable socket.
- 650lb Spring Release.

Part No: 7017-180

---

**4” x 4” Parallelogram Landmaster Unit**
- Suits 100mm x 100mm Toolbar
- 20” Coulter with depth bands to control depth and cut trash.
- Vertically adjustable 25mm x 50mm curved tyne fitted with spear point and seed tube.
- Press wheel featuring 18” x 2” Manutec Semi-pneumatic tyre.
- Vertical force on coulter at 2000psi can be adjusted from 20kg to 245kg in incremental settings.
- Vertical forces on tyne at 2000psi is 320kg
- Approximate weight: 140kg.

Part No: 7018 L 110 & 7018 R 110

---

**7” x 7” Parallelogram Landmaster Unit**
- Suits 178mm x 178mm Toolbar
- 20” Coulter with depth bands to control depth and cut trash.
- Vertically adjustable 25mm x 50mm curved tyne fitted with spear point and seed tube.
- Press wheel featuring 18” x 2” Manutec Semi-pneumatic tyre.
- Vertical force on coulter at 2000psi can be adjusted from 20kg to 245kg in incremental settings.
- Vertical forces on tyne at 2000psi is 320kg
- Approximate weight: 140kg.

Part No: 7018 L 120 & 7018 R 120
Patriot Unit
- Hydraulic break-out ranging from 300lb to 700lb.
- An underframe working height of 900mm.
- Heavy-duty fabricated parallelogram with a 500mm range of travel; 200mm down, 300mm up (from working height).
- Semi-pneumatic v-shaped press wheels with packing pressure up to 200lb.
- Versatile precision shank with single, dual, paired-row and liquid injection outlet options.
- Standard seeding depth range of 150mm, adjustable in 6mm increments.
- Heavy-duty dual acting cylinder featuring hard-chrome shafts.
- 300mm transport clearance.
- Grade 8 high tensile fasteners.
- Unit weight: 80kg

Part No: 7700-041

Rolling Cultivator Short Pipe Unit
- Suits 178mm x 178mm Toolbar.
- Features 5 spider hard surfaced gang.
- Threaded rod depth adjuster.
- Adjustable sliding gang mount for precision row setting.
- Approximate weight: 74kg.
- 5 Spider Gang Assembly.
  Part No: 7352-038
- Short Pipe and Clamp Assembly.
  Part No: 7352-039

Predator Cultivator Unit
- Suits 178mm x 178mm Toolbar.
- 25.4mm Greasable bearings on parallelogram pivot points.
- Optional attachments include crescent knives, beet knives, barring discs, rigid 457mm alabamas, 812mm lifted wing sweeps, 457mm shear pin alabamas, and crop shields.
- Approximate weight: 140kg.
  Part No: 7022-182

Parallelogram Twin Disc Planter Unit
- Suits 178mm x 178mm Toolbar.
- 457mm double coulters combine to provide guaranteed placement of seed and fertiliser.
- Unique combination sealing arrangement features in coulters and press wheels ensuring extra long bearing life.
- Press wheels feature heavy duty stubs and provide easily adjustable depth control.
- Press wheels are available in soft, medium or hard rubber depending on application specifications.
  Part No: 7500-457

Triple Disc Hiller Unit
- Suits 178mm x 178mm Toolbar.
- Simple Breastcut & Undercut Adjustment.
- Two self-aligning greasable bearings mounted on a 38mm square axle with one 558mm, one 508mm and one 547mm scalloped disc blade spaced 200mm apart.
- Requires 25hp per row.
- Approximate weight: 140kg.
  Part No: 7720-363

Hydraulic Cotton Root Cutter
- Suits 178mm x 178mm Toolbar.
- 450mm x 6mm and 500mm x 6mm cutter discs fitted with trash clearing paddles.
- Adjustable spring-loaded mounting arms.
- Heavy-duty mount construction.
- Concealed greasable tapered roller bearings.
- 90 litre per minute hydraulic oil requirement to drive units.
  Part No: 7720-363
